

# Mapping Ambulance Response Events Bhutan, 2018-2019

*Mila Dorji and Gabriel Saruhashi*

*7/24/2019*

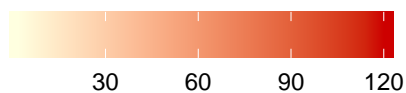

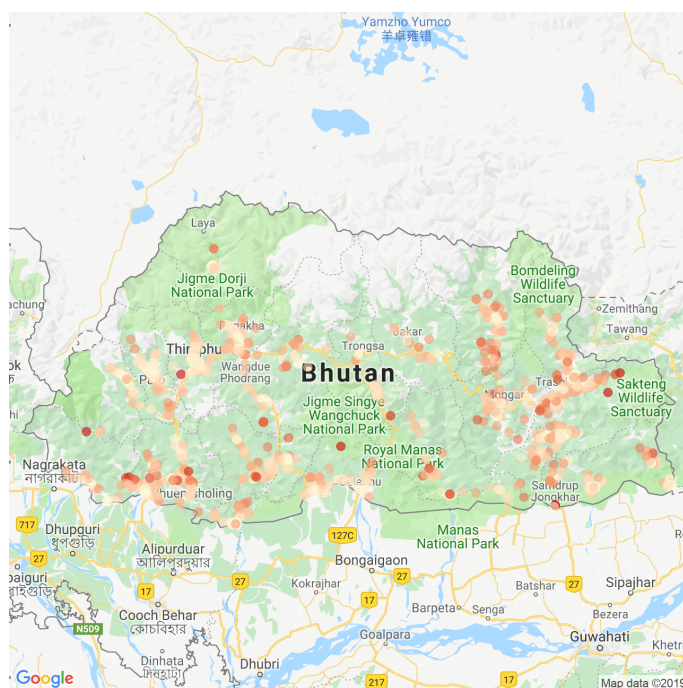

## Abstract

This is a map of most of the ambulance response events in Bhutan from October 2018 to June 2019, color-coded based on the driving time of the ambulance to arrive at the scene.

To-do: fix a few edge cases and obtain the last section of response events that are not already properly caught by our scripts

Also, R Markdown is pretty! :)

## Map

Trip Duration (minutes)
